

Columns

Product Code: PIL52

These are square columns. Each shaft section is created by combining two halves. These sections can be rotated in an alternating fashion to create a staggered appearance; it depends upon the kind of look that is desired. The base and capital are created by wrapping moulding around the top and bottom of the combined shaft sections.

A=SHAFT(SQUARE)

D=TOTAL HEIGHT

B=BASE(SQUARE)

E=CAPITAL HEIGHT

C=CAPITAL(SQUARE)

F=BASE HEIGHT
